CAREER OBJECTIVE

As a passionate and results-driven Frontend Developer, I aim to contribute to an innovative organization by building fast, responsive, and user-friendly web interfaces. I specialize in writing clean, maintainable code using React, Tailwind CSS, and JavaScript. My long-term goal is to grow into a Full-stack Developer and lead high-performing frontend teams.

WORK EXPERIENCE

Personal Projects/ Portfolio Development

- Front-End Developer (Self-Driven) | 07/2024 – Present
- Developed responsive Front-End projects with React, Tailwind, and API integration.
- Monitor brand consistency across marketing channels and materials.
- Committed 6+ hours daily to learning and coding.

Responsibilities:

- Worked on multiple-portfolio-based projects involving responsive web design, component-based UI, and basic API integration using React and Tailwind CSS.
- Focused on solving layout-bugs, responsiveness issues and design mismatches from Figma files.
- Delivered complete frontend project solutions including page structure, interactivity, and performance optimization.

EDUCATION

Diploma in Engineering 2015- 2020
